고2 전국 모의 대학수학능력시험 문제지 (M3)

# 영어 영역

시간 : 70분
점수 : 100점

| 성명 | | 수험 번호 | |
|---|---|---|---|

○ 문제지의 해당란에 성명과 수험 번호를 정확히 쓰시오.

○ OMR 답안지의 해당란에 성명, 수험 번호, 답 등을 표기할 때에는 반드시 '수험생이 지켜야 할 일'에 따라 표기하시오.

○ 문항에 따라 배점이 다르니, 각 물음의 끝에 표시된 배점을 참고하시오. 3점 문항에만 점수가 표시되어 있습니다. 점수 표시가 없는 문항은 모두 2점씩입니다.

1번부터 17번까지는 듣고 답하는 문제입니다. 1번부터 15번까지는 한 번만 들려주고, 16번부터 17번까지는 두 번 들려줍니다. 방송을 잘 듣고 답을 하기 바랍니다.

**1.** 대화를 듣고, 남자의 마지막 말에 대한 여자의 응답으로 가장 적절한 것을 고르시오.

① Right. You've been working hard.
② That would be great. He deserves it.
③ Okay. Let's make it the best day ever.
④ Absolutely! We should recommend each other.
⑤ Well, I've never thought of him as a salesperson.

**2.** 대화를 듣고, 여자의 마지막 말에 대한 남자의 응답으로 가장 적절한 것을 고르시오.

① My parents also try to visit as often as possible.
② I didn't want to return to the city I was living in.
③ I caught some fish while fishing with my grandpa.
④ It's been ages since my grandpa moved to the countryside.
⑤ Thank you for telling me the benefits of living in the suburbs.

**3.** 다음을 듣고, 남자가 하는 말의 목적으로 가장 적절한 것을 고르시오.

① 개인 소지품 분실에 유의할 것을 강조하려고
② 분실물 보관소의 위치 변경을 공지하려고
③ 물품 기부 행사 참여를 독려하려고
④ 미납된 도서의 빠른 반납을 독촉하려고
⑤ 음식물을 남기지 말고 식사할 것을 당부하려고

**4.** 대화를 듣고, 여자의 의견으로 가장 적절한 것을 고르시오.

① 고령자 일자리 창출이 시급하다.
② 경로석 수를 늘리는 것이 필요하다.
③ 고령자를 위해 경로석을 비워 둬야 한다.
④ 지하철 승하차 시 타인을 배려해야 한다.
⑤ 대중교통 이용을 생활화하는 것이 중요하다.

**5.** 대화를 듣고, 두 사람의 관계를 가장 잘 나타낸 것을 고르시오.

① 환자 — 의사
② 가수 — 작곡가
③ 공연자 — 반주자
④ 공연 기획자 — 관객
⑤ 피아니스트 — 피아노 조율사

**6.** 대화를 듣고, 그림에서 대화의 내용과 일치하지 않는 것을 고르시오.

**7.** 대화를 듣고, 여자가 남자에게 부탁한 일로 가장 적절한 것을 고르시오.

① 다리미판 가져오기
② 셔츠 다림질하기
③ 식사 준비하기
④ 옷장 정리하기
⑤ 방 청소하기

**8.** 대화를 듣고, 여자가 시상식에 참석할 수 없는 이유를 고르시오.

① 개인 판매 실적이 뛰어나지 못해서
② 어머니를 병원에 모시고 가야 해서
③ 고객과의 회의가 예정되어 있어서
④ 아들의 졸업식에 참석해야 해서
⑤ 해외 출장을 가야 해서

**9.** 대화를 듣고, 남자가 지불할 금액을 고르시오. [3점]

① $60 ② $70 ③ $80 ④ $90 ⑤ $100

**10.** 대화를 듣고, 음악회에 관해 언급되지 않은 것을 고르시오.

① 개최 장소
② 개최 목적
③ 지휘자
④ 연주곡
⑤ 입장권 가격

**11.** 2019 Graduation Ceremony에 관한 다음 내용을 듣고, 일치하지 않는 것을 고르시오. [3점]

① 학생들은 늦어도 오전 10시까지 졸업식장에 와야 한다.
② 예행연습은 졸업식 당일 오전 10시 30분에 시작된다.
③ 각각의 졸업생의 하객은 5명을 넘을 수 없다.
④ 졸업식 가운은 6월 20일부터 배부된다.
⑤ 졸업식 가운의 반납이 늦어질 경우 10달러가 부과된다.

**12.** 다음 표를 보면서 대화를 듣고, 여자가 구매할 USB 플래시 드라이브를 고르시오.

**USB Flash Drives**

| | Model | Memory Capacity | Price | Body Material | Cap |
|---|---|---|---|---|---|
| ① | A | 16 GB | $5 | Plastic | × |
| ② | B | 32 GB | $10 | Plastic | ○ |
| ③ | C | 32 GB | $12 | Metal | ○ |
| ④ | D | 64 GB | $15 | Plastic | × |
| ⑤ | E | 64 GB | $25 | Metal | ○ |

**13.** 대화를 듣고, 여자의 마지막 말에 대한 남자의 응답으로 가장 적절한 것을 고르시오.

*Man*: _____

① Let me show you some snacks made with apples.
② Would you show me how to peel the apple skin?
③ We shouldn't have too much whatever the fruit is.
④ There are good reasons not to remove the apple skin.
⑤ I usually dry the apple skins and use them to make tea.

**14.** 대화를 듣고, 남자의 마지막 말에 대한 여자의 응답으로 가장 적절한 것을 고르시오. [3점]

*Woman*: _____

① The forest is a dangerous camping site for children.
② They know camping is enjoyable even for young children.
③ They wait to go camping till their children are old enough.
④ They don't know careful preparation is a must for camping.
⑤ Going camping is more dangerous for babies than for toddlers.

**15.** 다음 상황 설명을 듣고, David가 분실물 보관소 직원에게 할 말로 가장 적절한 것을 고르시오.

*David*: _____

① I recommend that you take the water ride.
② I'd like to report my missing sunglasses.
③ I'm looking for brand-new sunglasses.
④ Thank you for finding my sunglasses.
⑤ I want to go to the lost and found.

**【16~17】 다음을 듣고, 물음에 답하시오.**

**16.** 여자가 하는 말의 주제로 가장 적절한 것은?

① importance of having fruits regularly
② reasons we should have seasonal fruits
③ ways to store seasonal fruits effectively
④ health benefits of eating nutritious fruits
⑤ advantages of buying fruits in local markets

**17.** 언급된 과일이 아닌 것은?

① orange ② pineapple ③ apple
④ watermelons ⑤ tomatoes

이제 듣기 문제가 끝났습니다. 18번부터는 문제지의 지시에 따라 답을 하기 바랍니다.

**18.** 다음 글의 목적으로 가장 적절한 것은?

Dear Mr. Jones,

I am sorry to be writing to you but I have been growing increasingly troubled over the past few months by a really loud noise which seems to come from your house at around 2 a.m. every Saturday morning. I assume a member of your household is causing it. It is preventing me from sleeping at night. Perhaps you could check and get back to me, or simply ask the member to stop. The noise must be driving you crazy, too, so I am sure you will be as glad as me to get it sorted out.

Yours,
Daisy Rocket

① 소음 규제 관련 규정을 입주민에게 알리려고
② 숙면을 취할 수 있는 방법에 대해 문의하려고
③ 한밤중에 소음을 일으킨 점에 대해 사과하려고
④ 새벽에 발생하는 소음 문제의 해결을 요청하려고
⑤ 어려움에 처한 이웃에게 문제 해결 방법을 조언하려고

**19.** 다음 글에 드러난 'I'의 심경 변화로 가장 적절한 것은?

My mother was driving me to soccer practice. I was in the eighth grade at the time. We came to a stop sign, and I looked out the window and saw a cat lying near a park bench licking what appeared to be a wound. I begged Mom to let me go over to get a closer look. She allowed me to do so. The cat was badly injured, which made me feel pity for it. I asked my mother to let us take it to a local animal hospital. When we arrived there, the vet took care of the cat, and then released it to our care. My mother was left with the bill for an animal we didn't own. But she paid the bill anyway! I was grateful because she had agreed to help this injured cat. Paying the vet bill was more than she could afford — it was a really expensive thing for her to do.

① sad → frustrated ② angry → satisfied
③ curious → indifferent ④ excited → disappointed
⑤ sympathetic → thankful

**20.** 다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

The great dictators of history blaze an inglorious path for a while and then crash and burn, often at a great cost to their own people. There are many reasons why they self-destruct, but one reason is that they tolerate no disagreement. Theirs is the only voice they wish to hear. Sustainable leadership depends on having different views and being open to challenge. As the proverb says: "More than one bird sings in the forest." Listen to them all. If you run a business, do you have business units, functions, or geographies of customer groups at the top table? Or a mix of them? If you run a school, do you have year heads, subject heads or functions? There is no single formula to solve this. Therefore, it is wise to at least hear out as many people as you can and not just yourself. This prepares your organization to sustain itself over time. *dictator: 독재자

① 리더십을 기르기 위해서는 성공한 지도자를 모방하라.
② 다른 사람의 의견에 흔들리지 말고 소신 있게 행동하라.
③ 지속가능한 리더십을 위해서는 다른 사람의 말을 경청하라.
④ 실패의 원인을 타인에게서 찾기보다는 자신의 잘못을 먼저 인정하라.
⑤ 직업적 성공을 거두려면 변화하는 시대에 발맞춰 자기 계발에 힘써라.

**21.** 밑줄 친 have the same effect가 다음 글에서 의미하는 바로 가장 적절한 것은?

A study was done recently in which people on opposite sides of an issue were given the same newspaper article to read. The people were asked to read the article carefully and to offer their reaction. On average, people said they thought the article was biased — against their own position. That is, people on both sides of the issue thought the exact same article was biased against their side. The article could not possibly have been biased against both sides of the issue. Clearly, it wasn't the content of the article that drove the reaction, but the perspective of the readers. Life events have the same effect. The same event can be seen positively, or it can be seen negatively. It depends upon your perspective.

① give us the facts that help us to determine which view is correct
② test people in time of conflicts where one needs to take sides
③ make us believe that neutral views are better than extreme ones
④ induce different responses from people with opposite world views
⑤ strengthen the biased attitudes toward people in unfavorable social conditions

**22.** 다음 글의 요지로 가장 적절한 것은?

We are not the same folks who marched out of Africa. Our genes have coevolved with our inventions. In the past 10,000 years alone, in fact, our genes have evolved 100 times faster than the average rate for the previous 6 million years. This should not be a surprise. As we domesticated the dog (in all its breeds) from wolves and bred cows and corn from their unrecognizable ancestors, we, too, have been domesticated. We have domesticated ourselves. Our teeth continue to shrink (because of cooking), our muscles thin out, our hair disappears. Technology has domesticated us. As fast as we remake our tools, we remake ourselves. We are coevolving with our technology, and so we have become deeply dependent on it. If all technology — every last knife and spear — were to be removed from this planet, our species would not last more than a few months.

① 우리는 우리가 만든 기술에 길들여져 그것 없이는 살 수 없게 되었다.
② 기술의 발전은 우리가 당면한 현실의 문제를 해결하는 과정이다.
③ 기술은 자연의 제약으로부터 우리를 자유롭게 해 준다.
④ 기술에 대한 과도한 의존은 인간성을 메마르게 한다.
⑤ 기술의 발전으로 인해 사회 문제가 심화되기도 한다.

**23.** 다음 글의 주제로 가장 적절한 것은?

The bald eagle, which nearly became extinct in the twentieth century, is on the endangered species list of the United States government. These magnificent birds were severely affected by DDT (an insecticide that caused the eagle's eggs to become weak and break, killing the chick) and hunting. By 1963, there were fewer than 1,000 bald eagles in the United States. Banning the use of DDT and prohibiting the shooting of bald eagles has begun to reverse this decline. In 2001, there were more than 10,000 bald eagles in the United States. Another factor that allowed the eagles to make a comeback was the Clean Water Act of 1972, because eagles need clean water as well as food to survive. Protecting the forests can also help the eagle, since this species needs tall trees in which to build nests.

*insecticide: 살충제

① the need to save species at risk of extinction
② fruitless efforts for the protection of bald eagles
③ the importance of a healthy ecosystem for humans
④ the relationship between bald eagles and fishery restoration
⑤ factors that increased the population of endangered bald eagles

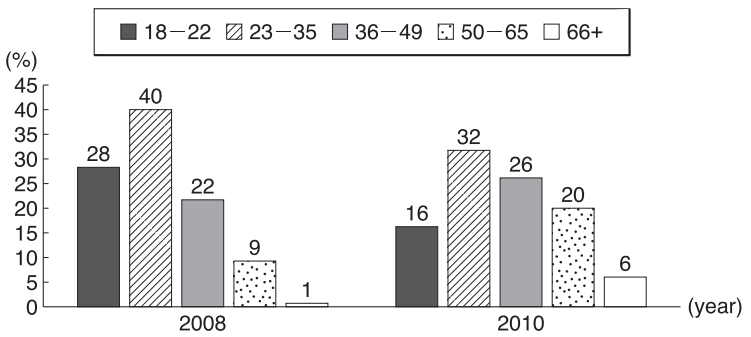
**24.** 다음 글의 제목으로 가장 적절한 것은? [3점]

How does one scientifically prove there are no sea monsters? There could have been sea monsters. It was a logical possibility. No one, and no scientific investigation, can ever prove a negative. To prove there are no sea monsters one has to be willing to undertake voyages of exploration. The first explorer to successfully cross the Atlantic or Pacific Ocean gives a sigh of relief. He's lucky. He wasn't eaten. After fifty successful voyages, everyone believes that there probably aren't any sea monsters. And after a thousand successful voyages everyone accepts that sea monsters do not exist. The people willing to make the first voyages, those who take the risk that there really are sea monsters, are the ones who conquer the world, get rich, and put their names in the history books. They are the bold.

① Does Logic Always Win in Life?
② Have Sea Monsters Ever Existed?
③ Adventure: The Basic Instinct of Humans
④ Good Planning: The Virtue of Smart Explorers
⑤ First Risk-Takers: The Bold Who Make a Difference

**25.** 다음 도표의 내용과 일치하지 않는 것은?

**Age Distribution of Social Networking Site Users in 2008 and 2010**



The above graph shows the age distribution of social networking site users in 2008 and 2010. ①Among all the age groups, the percentages of social networking site users who were 23 to 35 years old were the highest both in 2008 and 2010. ②The percentage of social networking site users aged 18 to 22 was the second highest of all the age groups in 2008. ③However, the age group of 36 to 49 showed the second highest percentage of social networking site users in 2010. ④The age group of 50 to 65 accounted for 20 percent of social networking site users in 2010, which was less than twice the percentage of the users in the same age group in 2008. ⑤The percentage of social networking site users who were 66 years old and over was the lowest in the given years.

**26.** Lewis Latimer에 관한 다음 글의 내용과 일치하지 않는 것은?

Lewis Latimer is best known for the development and promotion of electric light. He worked with well-known scientists, including Alexander Graham Bell and Thomas Edison. As black inventors were not accepted during the time he was developing his theories, Lewis's efforts were not nationally recognized at first. He wrote a book describing how electric lights worked. He supervised the installation of electric lighting for the cities of Philadelphia and New York. He was the only employee of the United States Electric Light Company who knew every aspect of electric light bulb manufacturing. During his career, Lewis Latimer patented processes for making light bulb filaments and threaded sockets. In 1884, Thomas Edison asked Lewis to join the Edison Electric Light Company; after his employment, Lewis was remembered as a great man.

*threaded: 나삿니가 있는

① Alexander Graham Bell과 함께 일하기도 했다.
② 전등의 작동에 관한 책을 썼다.
③ 필라델피아시와 뉴욕시의 전등 설치를 감독했다.
④ 전구 필라멘트 제조 과정의 특허를 얻었다.
⑤ Edison Electric Light Company에 끝내 들어가지 않았다.

**27.** Friday Movie Night에 관한 다음 안내문의 내용과 일치하지 않는 것은?

**Friday Movie Night**

*Jack's Adventure*
Why don't you enjoy this great movie and
have lots of fun with your family?
Friday, May 31, 2019
at Rose Square in Hawthorne Park

Movie begins at 7:30 p.m.
Fee: $2 per person

* You can purchase pizza, popcorn, nachos, candy and soda.
* Bring your sleeping bags, dress comfortably and get ready for some fun! Chairs will be allowed in designated areas.
* Children under age 14 must be accompanied by an adult.
* Rain or shine! If it rains, the location will be inside the James Center in the park.

For more information, visit www.fmovienight.org.

① 5월 31일에 Hawthorne 공원에서 열린다.
② 영화는 오후 7시 30분에 시작된다.
③ 요금은 1인당 2달러이다.
④ 의자는 지정된 장소에서만 사용이 허락된다.
⑤ 비가 올 경우 행사가 연기된다.

**28.** Students Youth Forum에 관한 다음 안내문의 내용과 일치하는 것은?

**Students Youth Forum**

We would like to invite you to participate in our free, fun, and informative forum. The forum theme is "GREEN URBAN YOUTHS" which aims to help you to brainstorm ways of raising awareness of the importance of reducing unnecessary waste in our daily lives.

**Who is invited?** High school students of Eastwood Village
**What?** Opportunity to discuss environmental issues
**When?** Saturday, April 27, 10 a.m. − 3 p.m.
**Where?** Energy Innovation Center

Learn more and register at www.studentsyouthforum.org.
Pre-registration is required!

① 유료로 진행된다.
② 참가 대상은 Eastwood 마을의 대학생이다.
③ 정치적 사안에 관해 토론한다.
④ 일요일 오전 10시부터 시작한다.
⑤ 사전 등록이 필요하다.

**29.** 다음 글의 밑줄 친 부분 중, 어법상 틀린 것은? [3점]

Since acorns and other nuts are not available year-round, tree squirrels have learned ①to store their food for harder times. The nuts, cut from high in the trees, drop to the ground, where they are ②gathered one at a time by the squirrel. Each nut is then carried away and buried in a shallow hole ③that the squirrel digs with its paws; the hole is covered and tamped down to conceal the cache. Richard G. Van Gelder, in *Mammals of the National Parks*, explains that "hundreds of nuts are buried, each ④takes one to three minutes to conceal. When winter comes, buried nuts are the animal's main food source. Squirrels do not remember where they bury the nuts (tests indicate that they forget the location within a half hour) but in winter, even when there is snow on the ground, can find each nut by a keen sense of smell and dig ⑤it out. Buried nuts not utilized by squirrels are an important reforestation source."

*tamp: (땅 따위를) 다지다, 다져 넣다
**cache: 은닉처

**30.** 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은? [3점]

Communication skill refers to an individual's ability to achieve communicative goals. Skilled behaviors are ①selected by the individual to achieve a desired outcome, and as such are purposeful as opposed to chance. The importance of goals has long been ②recognized. McDougall, for example, claimed that a key characteristic of human behavior is its goal-oriented nature. A ③union needs to be made between goals and plans. Once goals have been formulated, plans must be devised to attain them. The plan is the route map to the goal. However, while a plan implies that there is a goal, a goal does not always imply that there is a plan. An ④unskilled person may have ambitious goals, but without carefully related action plans nothing is likely to be achieved. In turn, the ⑤execution of plans depends on a range of resources, such as money, access to relevant others, interpersonal skills, and cognitive ability.

**【31～34】 다음 빈칸에 들어갈 말로 가장 적절한 것을 고르시오.**

**31.** Storytelling traditions have been a continuous thread in the history of humankind as far back as we can tell. Deep in a Spanish mountainside, the darkness lit only by the guide's paraffin lamp, I was fascinated to see Palaeolithic charcoal and ochre cave paintings: a fish, a horse, and a primitive calendar to mark the passing of days. Twenty-five thousand years ago, humans were attempting to communicate something about their world. What was the intention? Instructions for finding a vital food source? A parent's attempt to educate the next generation of hunters? Or a simple, creative impulse to reach out to someone, anyone, in a shared experience? We will never be sure. But this is where story comes from: the drive, the need, to communicate with someone other than yourself. A silent fantasy within your own head is not fully a story until it has been shared. A story grows, develops, and explains; it is interpreted anew over successive generations. It needs a(n) _____.

*Palaeolithic: 구석기 시대의
**ochre: 황토

① plot ② enemy ③ ending
④ memory ⑤ audience

**32.** Color is spatial, but it is not tied to scale. London, for instance, is often associated with the Royal Red of the UK's telephone boxes, mailboxes, and buses, rather than the gray pavements that proportionately make up much more of the city's color. Jean Nouvel's 2010 summer pavilion at London's Serpentine Gallery was as red as the mailboxes and buses of the city, the urban red complementing the greens of Hyde Park. Not especially known for his use of color, Nouvel chose the red for its association with London. During the annual Hajj pilgrimage, Mohja Kahf writes, the beiges and whites of Mecca are animated with the cheerful hues of women temporarily liberated from clothing restrictions, unlike their male counterparts, who must wear two pieces of white fabric. As a whole, they represent a chromatic geography that originates with the body yet identifies with the city. From the body to cities, color _____. [3점]

*pavilion: 전시관 **pilgrimage: 성지 순례 ***chromatic: 색채의

① lends identity
② changes mood
③ delivers beauty
④ arouses emotions
⑤ influences behavior

**33.** Be very careful of percentages. Take a (fictitious) claim that drinking coffee increases your risk of heart attack by 35 percent. Such a claim may well send you heading for the nearest bar. But before you do, such a statistic is highly misleading. First, we need to know to whom the risk applies. Is the increased risk only for those of a certain age, or those prone to heart attacks, or for the "average person"? Secondly, you need to think about what the risk of heart attack is in the first place. We could say that going for walks in the countryside increases your risk of being hit by an asteroid by 300 percent, but you would probably not worry because the risk isn't high in the first place. So a horrifying-looking increase in a risk is irrelevant _____.

*asteroid: 소행성

① if the original risk is very low
② if the preparation is fully ready
③ since the claim itself can be wrong
④ because the risk will be eliminated soon
⑤ because percentages come in big numbers

**34.** Mathematicians like to state and prove uniqueness theorems, which assure beforehand that there is only one solution to a particular class of problems. That is of great benefit to mathematical physicists who use equations to model the universe. But it is seldom something that engineers working on practical problems have exploited. _____. It is why we can go to the superstore and find a multitude of different kinds of toaster ovens, washers, dryers, refrigerators, and other small and large appliances. Some of the differences, such as where a door is located and how it opens, may not be meaningful, but other distinctions, such as the nature of heating elements or compressor design and operation, can make the difference between satisfactory and unsatisfactory performance. [3점]

*uniqueness theorem: (수학에서의) 유일성의 정리
**compressor: 압축기

① Many engineers want to have cooperative interaction
② There is more than one way to solve an engineering problem
③ There should be interactive efforts among working scientists
④ Engineering techniques inevitably share an important principle
⑤ There can be similarities between mathematicians and engineers

**35.** 다음 글에서 전체 흐름과 관계 없는 문장은?

Zoo marketing relies heavily on the 'wildness' of the animals in the collection. Promotions use the exotic nature of the collection animals to promote the excitement of the experience. ①The habitats and descriptors are used to increase interest in the wildness of the animals. ②However, the animals in zoos are seldom actually wild; few zoo animals are sourced from the wild, and humans manage all aspects of their daily lives, including breeding and feeding activities. ③Historically, basic zoo animal welfare issues have included capture and handling techniques, nutrition, housing, and sanitation. ④Zoo animals live in human constructs and are conditioned to interact with humans on an ongoing basis. ⑤While a species may be considered wild, individual zoo animals are not.

**【36~37】 주어진 글 다음에 이어질 글의 순서로 가장 적절한 것을 고르시오.**

**36.**

> You have everything to gain by talking to yourself positively. Canfield, for example, said, "When we were writing the book, I was always telling people, 'We're writing a best-seller.' I was saying it before it happened."

(A) But few make the effort to follow through with it. There are many fine books and audio programs on how to develop a more positive psychological self. The tools are there when you need them.

(B) That's an affirmation. But he did more than that. He also took a copy of the *New York Times* best-seller list and physically inserted the name of his book in an identical typeface. Then, he framed the hoped-for list and hung it on the wall.

(C) He also imagined himself being interviewed about the book on a talk show. Those are visualizations. And Canfield kept affirming and visualizing his success until it actually occurred. Lots of people believe that his method could work.

*affirmation: 확언, 단언
**typeface: 서체

① (A) – (C) – (B)
② (B) – (A) – (C)

④ (C) – (A) – (B)
⑤ (C) – (B) – (A)

**37.**

> Why are giant brains so rare in the animal kingdom? The fact is that a jumbo brain is a jumbo drain on the body. It's not easy to carry around, especially when encased inside a massive skull.

(A) By comparison, the brains of other apes require only 8 percent of rest-time energy. Ancient humans paid for their large brains in two ways. Firstly, they spent more time in search of food. Secondly, their muscles dwindled.

(B) Like a government diverting money from defence to education, humans diverted energy from biceps to neurons. It is hardly a foregone conclusion that this is a good strategy for survival on the savannah. A chimpanzee can't win an argument with a Homo sapiens, but the ape can tear the man apart like a doll.

(C) It's even harder to fuel. In Homo sapiens, the brain accounts for about 2-3 percent of total body weight, but it consumes 25 percent of the body's energy when the body is at rest.

*encase: (보호하기 위해) 감싸다 **divert: 전용하다 ***biceps: 이두근

**38.**

> Vitamins and minerals are known as the micronutrients, which are required by your body in much smaller quantities.

Nutrients are sorted into categories on the basis of their chemical structures and functions. Carbohydrates, proteins, and fats contained in foods are known as the macronutrients, because they are required in the largest quantities. ( ① ) In addition to their other functions, macronutrients provide energy in the form of calories. ( ② ) Although they help your body use the energy in macronutrients, they provide no energy (calories) themselves. ( ③ ) Water is also an essential, calorie-free nutrient. ( ④ ) The work our bodies do each day causes us to use up some of our stores of these essential nutrients. ( ⑤ ) Only by maintaining a diet that is rich in various nutrient-containing foods can we replace those lost nutrients. [3점]

*micronutrient: 미량 영양소
**macronutrient: 다량 영양소

**39.**

> Punishments were worse for committing crimes against the state than against other citizens.

As thousands of unrelated humans came to live together in cities, they needed organization. A leader named Hammurabi became known as "the law giver." ( ① ) The Code of Hammurabi consisted of laws governing every aspect of life in Mesopotamia: the management of the irrigation canals, marriage, divorce, adoption and construction. ( ② ) The punishment in many cases was literally "an eye for an eye" or a broken bone for a broken bone. ( ③ ) For example, the fine for stealing a sheep, pig, or ox from the government was triple the fine for stealing from another citizen. ( ④ ) The Code also governed the wine trade and taverns. ( ⑤ ) Tavern owners, usually women, had to report any talk they heard about plots to overthrow the government.

*tavern: 여인숙

**40.** 다음 글의 내용을 한 문장으로 요약하고자 한다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은?

> A predator is less likely to encounter bunched than scattered animals in the same range. Moreover, when a group of prey is attacked, only one or a few of its members are likely to be killed; the rest usually escape. The danger is diluted by numbers, the principle at work being the gain from maximizing competition for the bad things in life. If an unprepared student is afraid that a teacher will call on her, she will be more secure in a large class than in a small one because she is then protected by potential substitute victims. Protection by dilution is mathematically verifiable; it falls as the proportion of victims in the group increases and as the attack rate rises. (The latter is not linear: a herd of 100 antelopes does not get attacked 100 times more often than a lone animal.)
>
> *dilute: 희석하다

Of our five senses, vision is responsible for the largest portion of information processed by the brain. It is certainly our most dominant sense. Hearing (a) complements vision even though each perceives the world in a different way. When you hear a car honk, you can find out which car made the sound by (b) detecting the direction the sound came from and by looking at the car closest to it. Our brain integrates both inputs to perceive reality in a seamless way. The speeds at which these signals travel to the brain (c) vary from one sense to another. To appreciate the complex challenge that the brain faces, all sensory signals arrive at different brain areas at slightly different times and are processed at different speeds. The color, motion, and sound signals of a red Ferrari that is moving past you at high speed are all combined into a single perception in your mind, even though the processing of these sensory signals is (d) distributed over several brain locations. The brain's auditory cortex, for instance, processes an audio signal from your ear faster than a visual signal is processed in the visual cortex. The difference is around 40 milliseconds, which is not much, but enough to justify using a gun for starting a race, instead of a light flash. The faster audio processing speed means that sprint runners react more (e) slowly to a bang than to a flash of light.

*seamless: 매끄러운
**auditory cortex: 청각 피질

**41.** 윗글의 제목으로 가장 적절한 것은?

① Is Sound More Reliable than Vision?
② Why Are Parts of the Brain Specialized?
③ Strong and Weak Points of Visual Perception
④ How Do We Perceive Reality with Our Senses?
⑤ Sensory Processing Disorder: Causes and Treatment

**42.** 밑줄 친 (a)～(e) 중에서 문맥상 낱말의 쓰임이 적절하지 않은 것은? [3점]

① (a) ② (b) ③ (c) ④ (d) ⑤ (e)

【43～45】 다음 글을 읽고, 물음에 답하시오.

(A)

When Tom was in the seventh grade, he was a volunteer at a local hospital in his town. He volunteered about thirty to forty hours a week during the summer. Most of the time he spent there was with Mr. Gillespie. (a) He never had any visitors, and nobody seemed to care about his condition. Tom spent many days there holding his hand and talking to him, helping with anything that needed to be done.

(B)

Several years later, he was at the gas station when (b) he noticed a familiar face. Mr. Gillespie was alive! Tom got up the nerve to ask him if his name was Mr. Gillespie, and if he had been in a coma about five years ago. With an uncertain look on his face, he replied yes. Tom explained how he knew, and that he had spent many hours talking with (c) him in the hospital.

*coma: 혼수상태

(C)

Mr. Gillespie gave Tom a warm hug. He began to tell Tom how, as he lay there in a coma, he could hear Tom talking to him and could feel Tom holding his hand the whole time. (d) He had thought it was an angel, not a person, who was there with him. Mr. Gillespie firmly believed that it was Tom's voice and touch that had kept him alive. Tom felt his heart filled with joy. To Mr. Gillespie, he was an angel.

(D)

Mr. Gillespie became a close friend of Tom's, even though (e) he responded with only an occasional squeeze of Tom's hand. Mr. Gillespie was in a coma. One day Tom left for a week to vacation with his parents, and when he came back, Mr. Gillespie was gone. Tom didn't have the nerve to ask any of the nurses where he was, for fear they might tell him Mr. Gillespie had died. So with many questions unanswered, Tom continued to volunteer there through his eighth grade.

**43.** 주어진 글 (A)에 이어질 내용을 순서에 맞게 배열한 것으로 가장 적절한 것은?

① (B) – (D) – (C)
② (C) – (B) – (D)
③ (C) – (D) – (B)
④ (D) – (B) – (C)
⑤ (D) – (C) – (B)

**44.** 밑줄 친 (a)～(e) 중에서 가리키는 대상이 나머지 넷과 다른 것은?

① (a) ② (b) ③ (c) ④ (d) ⑤ (e)

**45.** 윗글의 Tom에 대한 내용으로 적절하지 않은 것은?

① 자원봉사 시간 대부분을 Gillespie 씨와 함께 보냈다.
② 주유소에서 Gillespie 씨를 다시 만났다.
③ Gillespie 씨의 따뜻한 포옹을 받았다.
④ Gillespie 씨가 어디로 갔는지 간호사에게 물어보았다.
⑤ 8학년까지 계속 자원봉사를 했다.
